📍 Blida, Algeria

in abderrezake-benbachir

PROFILE

Fourth-year Computer Science Engineering student (Cybersecurity track) at Saad Dahlab University, Blida — consistently ranked 1st in class. Hands-on experience building SOC infrastructure, configuring enterprise networks, automating incident response, and managing cloud environments. Seeking a final-year internship or role in network/cyber operations, infrastructure, or security engineering.

PROFESSIONAL EXPERIENCE

Cybersecurity Intern — SOC Build | *Banque Nationale de l'Habitat (BNH)* Feb 2026 – Present

- Designed and deployed a full SOC process from scratch for the bank's cybersecurity team.
- Built a SIEM solution using Wazuh for log collection, correlation, and real-time threat detection.
- Integrated n8n SOAR for automated incident response playbooks triggered directly by Wazuh alerts.
- Implemented Grafana dashboards providing real-time SOC visibility, alert trends, and KPI monitoring.

Network & Cloud Computing Intern | *CERIST* Jul 2025 – Feb 2026

- Configured network infrastructure: switches, routers, VLANs, and routing protocols in a production environment.
- Developed an n8n automation system for SOC alert triage and incident response workflows.
- Worked on cloud computing topics including network security and hybrid cloud architectures.
- Collaborated with the CERIST cyber team on automation and security monitoring projects.

IT Infrastructure Intern | *ESI Datacenter (Ecole Nationale Supérieure d'Informatique)* Mar 2025 – Jun 2025

- Gained hands-on experience with real-world data center operations and infrastructure management.
- Worked with virtualization technologies: VMs (VMware/Proxmox), Docker containers, and networking tools.
- Assisted in system monitoring, deployment automation, and troubleshooting tasks.
- Strengthened knowledge in cloud and hybrid system architecture.

Web Developer | *Schooline (E-learning Platform)* 2023 – 2024

- Built the full back-end for an e-learning platform (course management & sales) using Django.

LEADERSHIP & COMMUNITY

Cybersecurity Team Leader | *IT Community Club — Saad Dahlab University* Oct 2025 – Present

- Leading the club's cybersecurity division: CTF training, workshops, and industry event participation.

President | *IT Community Club — Saad Dahlab University* Oct 2024 – Sep 2025

- Managed club operations for a 500+ member community; led cross-functional officer teams.
- Organized ITC TALKS 6th Edition: coordinated 5 speakers on topics from Quantum Computing to Prompt Engineering.
- Directed ITCast podcast team and oversaw ITC TALKS 4 & 5, ITCP 1 & 5, Hack Wave 1, and Welcome Day.
- Public speaker and animator; appeared on ENTV A3 and A6 segments.

COMPETITIONS & HACKATHONS

1st Place — Algeria 2.0 Hackathon (Agritech) | *Cyberparc de Sidi Abdellah* 2025

- Built FarmWise: an Agritech platform connecting new farmers with expert local practices and structured agricultural data.
- Core vision: a data flywheel generating hyper-local yield prediction and precision agriculture insights.

1st Place — Tamweel 2025 Hackathon | *A.F.Y.E* 2025

- Built RecyNest: a smart recycling platform connecting citizens, collectors, and recycling companies.

Other competitions:

- hack.ini 11th & 12th editions • AlphaCTF 2024 • Tatweer 2025
- OWASP Algiers Chapter x CSA Cybersecurity Seminar — Loi 18-07 & 25-11 (UNIDEES, 2025)

EDUCATION

Engineering Degree — Computer Science, Cybersecurity Track | Saad Dahlab University, Blida 12022 – 2027 (Expected)

- 4th year — entering 5th and final year. Consistently ranked 1st in class throughout the program.
- Core coursework: Network Security, Cryptography, Cloud Computing, Virtualization, Systems Administration.

CERTIFICATIONS

ISO/IEC 27001:2022 Lead Auditor	Mastermind	Aug 2025 – Aug 2028
Multicloud Network Associate (ACE)	Aviatrix	Sep 2025 – Sep 2028
EF SET English Certificate — C1 Advanced (61/100)	EF SET	Mar 2026
AWS Knowledge: Cloud Essentials	Amazon Web Services	Nov 2024
AWS Cloud Quest: Cloud Practitioner	Amazon Web Services	Oct 2024
AWS Cloud Practitioner Essentials	Amazon Web Services	Nov 2024
AWS Billing and Cost Management	Amazon Web Services	Nov 2024
Getting Started with Cloud Acquisition	Amazon Web Services	Nov 2024

TECHNICAL SKILLS

Network & Infra	TCP/IP, VLANs, Subnetting, Switching, Routing, Linux, Hardware Deployment
Cybersecurity	SIEM (Wazuh), SOAR (n8n), SOC Design, ISO 27001, OWASP, Cryptography, Risk Assessment, CTF
Cloud & Multi-Cloud	AWS (Cloud Practitioner), Aviatrix Multi-Cloud Networking, Azure, GCP, OCI
Virtualization	Docker, Docker Compose, Proxmox, VMware, VMs
Monitoring	Grafana, Wazuh Dashboards, Log Analysis, Network Monitoring
Automation	n8n (SOAR & workflow automation), Terraform (basics), scripting
Programming	Python, Java, C, SQL, JavaScript
Web Dev	Django, HTML/CSS, Backend Development, REST APIs
Languages	Arabic (native) • French (fluent) • English (C1 Advanced)
