PROFILE SUMMARY

Master's student in Electronic Instrumentation (M2), holder of a Bachelor's degree in Electronic Engineering, passionate about robotics, IoT, and embedded systems.
My goal is to strengthen my expertise in electronic design and contribute to innovative technological projects.

EDUCATION

UNIVERSITY OF SAAD DAHLEB, BLIDA

- Master's Degree in Electronic Instrumentation
(Currently enrolled)

UNIVERSITY OF SAAD DAHLEB, BLIDA

- Bachelor's Degree in Electronic Engineering
2021-2024

SKILLS

Technical Skills

Electronics & Instrumentation:

- Arduino, ESP32, IoT, sensors, combinational logic.

Robotics:

- Motor control, line follower robot, embedded systems.

Soft Skills

Leadership • Teamwork •
Communication • Creativity • Event
Management • Problem Solving

LANGUAGES

- Arabic:** Native language
- French:** Upper-intermediate (B2)
- English:** Upper-intermediate (B2)
- Spanish:** Beginner

EXPERIENCE

Robotics Leader and Trainer - ITC (Information and Technology Community)

Blida | 2024-2025

- Supervised and trained student teams for regional and national robotics competitions.
- Designed and led educational workshops introducing electronics, Arduino, and IoT.
- Organised public events and science outreach initiatives to promote technology and innovation.

Robotics Trainer for Children

Blida | 2024

- Conducted educational Arduino workshops and introduced young learners to robotic programming.

ACADEMIC & TECHNICAL PROJECTS

Smart Home System

- Designed a home automation system using Arduino, integrating soil moisture, sound, and light sensors, as well as an RFID module for access control.

Line Follower Robot

- Developed and programmed an autonomous robot based on Arduino and QTR sensors.

Motor Control & Embedded Systems

- Experimented with ESP32, IoT, and combinational logic for motor control systems.

LEADERSHIP & ACHIEVEMENTS

- Hosted and presented cultural, scientific, and robotics events within the ITC club.
- Active member and trainer of the ITC Robotics Team 2024/2025 – Team of the Year.
- Participant in multiple robotics competitions and interdisciplinary projects.
- Ongoing training in innovative project design and scientific communication.
