ABOUT ME

I'm a passionate and motivated aeronautics graduate, organized and eager to learn. I'm ready to take on new challenges, grow my skills, and contribute positively in a professional environment.

SKILLS

Crisis management

Team work

Communication

Adaptation capacity

Time management

Leadership

SolidWorks

Programming (fortran/HTML/CSS)

Microsoft (world/excel/PowerPoint)

LANGUAGE

- Arabic (Native language)
- French (Flent)
- English (B2)
- Spanish (Beginner)

EDUCATION

Institute of Aeronautics and Space Studies (I.A.E.S)

2022-2025

Technician in Aeronautics – Specialization in Aircraft Structures

- Knowledge in aeronautical structures and composite materials
- Blueprint reading, assembly, and inspection
- Basic CAD: ANSYS, SolidWorks Programming: Fortran

EXTRA-CURRICULAR EXPERIENCE

Active member – University clubs CSCC / CIAS / Le Jeune

2023-2025

Aviateur

- Regular participation in projects, workshops, and scientific events
- Cross-disciplinary learning: Entrepreneurship, Programming (html/CSS)

Equipment Manager – University Club

2024-2025

Club d'Innovation Aérospatiale - CIAS

- Logistical organization of club events
- Monitoring and management of the club's technical equipment

Team Leader – Graphic Design

2024-2025

Club d'Innovation Aérospatiale - CIAS

- Supervision of a design team for the visual materials of the club's events

Organizer – National Rocketry Competition (model rockets)

2024

University of Blida - Saad Dahleb

- Collaborative work with mentors, partners, and sponsors
- Coordination of participating teams, logistics, safety, and communication

Participant – Entrepreneurship Competition

2025

- Presented a mini-startup idea in a university-level competition

PROFESSIONAL EXPERIENCE

Internship – Air Algérie (Technical Department)

Aircraft Maintenance – Base Maintenance (Air Algérie)

JULY 2023

- Observation and participation in heavy maintenance operations (C and D checks)
- Introduction to avionics systems, aircraft structures, and safety procedures

Internship – Aeronautical Equipment Renovation Establishment

Helicopter Maintenance (ERMA)

JULY 2024

- Work on mechanical components and rotor systems
- Visual inspection, parts replacement, and familiarization with procedures specific to rotary-wing aircraft

Waitress – Café Pourquoi pas , Blida

2023-2024
